

## HAMMOCK

*Raising Your Voice... Trying to Stop An Echo* Darla

*Raising Your Voice* is recommended for pure relaxation and clearing of the mind, but not much else. The Nashville duo attempts to create an ambiance similar to that of Sigur Rós, but they come up short in comparison. Hammock needs something unique to fill the emptiness of the instrumentals, like Jónsi Birgisson's voice, which completes Sigur Rós. Then again, a collaboration between the two groups could be quite the success. >>>JESSEKA KADYLA
